~Message from Chairman & CEO~

I would like to extend my deepest sympathies to all those who have been struggling with the spread of the novel coronavirus. I sincerely hope that this situation will be resolved as soon as possible, so that we can return to our peaceful lifestyles.

Hiroshima Hino Motors has been supporting the fine arts and performing arts through a variety of activities for about 20 years, in order to “share art with everyone.” Since two years ago, which marked the 75th anniversary of our founding, we have been holding a piano competition as a new project.

This competition has two unique features.

The first feature is that we can use the Internet to hold this competition even under these difficult circumstances. The second feature is the number of participants who will be awarded prizes.

The music scene has been hit hard by the coronavirus, and I think that students have been affected as well. Therefore, we planned this competition so that the prize money will be distributed to as many people as possible, albeit a small amount, to help fund for activities.

It depends on the situation, but I hope that those who have passed the semi-final round will play at our facility “Hinokko Hall”.

I hope that this new competition, designed from a new perspective, will help to provide even just a little support to students who are studying music.

Hirofumi Ueno, Chairman & CEO
Hiroshima Hino Motors, Ltd.

~Purpose of This Competition~

November 3, 2020 we marked the 75th anniversary of the founding of Hiroshima Hino Motors. Previously, to commemorate our 60th anniversary, we co-sponsored for 10 years the “Kids’ Campus” for young children and lower elementary school children, in collaboration with the Faculty of Arts, Hiroshima City University as Challenge to lifelong learning for all generations. Since 2014, with the cooperation of members of the NHK Symphony Orchestra, we had continued to hold concerts that can be enjoyed by people of all ages. To celebrate our 75th anniversary, we held the first piano competition “Hinokko Piano Competition +” two years ago. And last year, we fortunately could hold it again.

The “+ (plus)” in the name of this competition represents our desire to approach this event “from a new perspective”. There is no participation fee, and the panel of judges will include music aficionados without any focus on musical genre or professional/amateur status. The music scene has been hit hard by the growing impact of the novel coronavirus. Many students are finding it difficult to continue playing music in an environment where concerts and competitions are often canceled, opportunities to perform have been drastically reduced, and even working at a part-time job is not possible.

Our aim is to quickly organize a competition in order to alleviate this situation even a little. We hope that it will act as a catalyst for the beginning of a new era in piano competitions.
